

MONO SPIRAL PUMP

KJN-SLF-200

Applications:

(Actual machine may look different)

Medium viscosity, low viscosity, containing granules, flowing liquid.

FOOD STUFFS

Jams, chocolate, syrups, sauces, tomato ketchup, batters, stews, sausage meats, eggs, fats, gelatin, soup, liquid sugar, molasses, honey, vinegar, preserves, soya sauce, peanut butter, jelly, chutney, mincemeat, olive oil, palm oil, chicken paste, coconut oil, cod oil, ketchup, maple syrup, marmalade, salad dressing, flavoring, pulp.

DAIRY PRODUCTS

Milk, curdled milk, yogurt, whey, cheese, curd, butter, margarine, oils, creams, cheese whey, mousse, custard cream cheese, pudding.

Beverages

Beer, wines, alcohol, syrups, yeast, wort, spirits, juices, cordials, minerals, tea, water, coffee liquor, cordials, cranberry juice.

PAPER & CHEMICALS

Acids, alkaline, soaps, paints, dyes, lacquers, resins, lubricants, solvents, black liquors, adhesives, latex, waxes, coatings, pastes, nail polish, mascara

PHARMACEUTICALS

Cream, gels, serums, disinfectants, lotions, shampoos, perfumes, soaps, toothpaste, vaccines, Vaseline, antibiotics, glucose, iodine ointment, perfumes.

Features:

1. To deliver semi-solid, low water containment, high density and high viscosity liquid.
2. 3-sectional universal joint allows better flexibility.
3. To deliver liquid containing air bubbles, granules, solids, and fibers.
4. The flow volume could be widely controlled.
5. With high pressure, with super self-sucking.
6. Purging with water, easy disassembly for flushing.
7. Cylinder type of shaft connection, free of risks of broken pins.
8. Precision ceramic used for shaft seal.

Specification:

Granularity (mm): 10
 Theoretical pump-out (cc/1R): 115.4
 Machine Weight: 33 KG
 Machine Length: 940 mm
